

nurture

Creating places of happiness

Who are Nurture CIC?

Nurture CIC is a not-for-profit community interest company, concerned with sustainability, the environment, and creating outdoor spaces where people and wildlife thrive, which we call #PlacesofHappiness. We help our supporters, customers and other stakeholders to meet their environmental and CSR objectives by providing an efficient and accessible sustainability-based CSR service.

How can we help?

If your customers and prospects ask you what you are doing about sustainability - we can help. Subscribing to our CSR as a service is a quick way for you to deliver CSR activity and help you recruit and retain people who care about sustainability. Some of the opportunities we provide include:

- Supporting and shaping sustainability projects which have a positive impact on wellbeing, biodiversity, and sustainability
- Providing volunteering, microvolunteering, and other opportunities for companies and colleagues to actively engage with sustainability projects
- Enabling you to talk about the impact of your support on communities, sustainability, the environment, and your unique CSR goals
- Collaborating with charities and other supporting organisations
- Representing you as a company engaging with sustainability motives simply through funding a community interest company like us

Our Woodmeadow Walk on Keele University campus

How to get involved

Nurture CIC offer a low-cost, quick-access solution for meeting your CSR goals and the growing sustainability interests of your customers.

To become a supporter, simply subscribe to a corporate supporter plan, paid each month. Your contribution will fund Nurture's sustainability projects, as well as providing opportunities for your teams to become actively involved with shaping projects and bringing them to life.

We encourage our supporters to get the most from their subscriptions. There are plenty of opportunities for supporters on all subscriptions to get involved.
